Appointed for Sixth Consecutive Year as Co-Author and Voting Member on Prestigious UL Standards TC Committee for UL Standards 8800, 8802, 8803

Minden NV, Brad Hollander Founder UVC LLC is proud to announce the reappointment as a co-author and voting member on the highly distinguished UL (Underwriter Labs) Technical Committee (TC) for UL Standards 8800, 8802, and 8803. This marks the sixth consecutive year of Brad Hollander's involvement, solidifying his significant contribution to the development of critical standards for germicidal and horticultural lighting, safety and design.

UL Standards 8800, 8802, and 8803 set the global regulations for the design and safety of UVC Germicidal Systems and Horticultural Lighting Systems. As one of fewer than 20 experts worldwide serving on these committees, Brad Hollander plays a pivotal role in consulting, shaping and voting on guidelines and regulations that ensure technological advancements and safety.

Quote from the individual "It is an honor to continue contributing to these vital safety and design standards alongside such a talented group of global experts. These guidelines not only advance innovation but also safeguard public health and support sustainable agricultural practices worldwide," said Brad Hollander.

About the UL TC Committee The Technical Committee for UL Standards 8800, 8802, and 8803 is composed of an elite group of professionals. The committee's work directly impacts industries such as, healthcare, sanitation, water, air, design, safety of UVC Germicidal Disinfection Systems to Agriculture Lighting and environmental management.

For over 45 years, UVC LLC has been the technology leaders in UVC Germicidal lamp, ballast, manufacturing and design. The only fully vertically integrated company in the industry.
